Figure 4-7

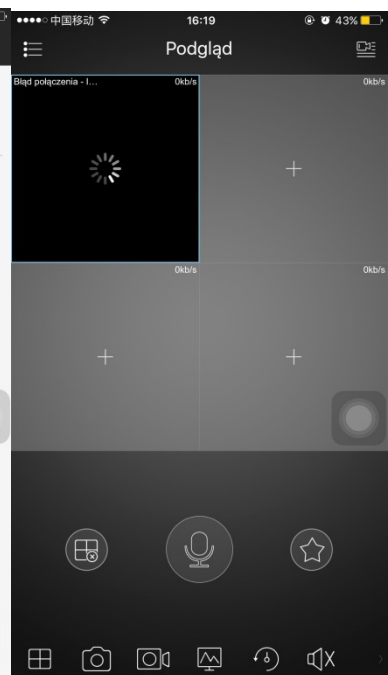

Figure 4-8

**Note:**

Please try again or check the WiFi password if it failed.

The WiFi configuration will be closed if activating WPS function, Please reset the device if you still need to configure WiFi via DMSS App.

## 5. Device Installation

### Important

Please make sure the installation surface can support the 3X weight of the camera and the bracket.

Figure 5-1

### Step 1

Paste the installation map on the installation surface such as wall, ceiling or the wood.

### Step 2

Dig holes in the installation surface according to the installation map.

### Step 3

Insert the expansion bolts from the accessories bag to the holes you just dug. If it is the wood surface you can skip to the next step.

### Step 4

Fix the device with screw in the accessories bag.

### Step 5

Connect the cable and then boot up the device.

### Step 6

Loosen the adjust knob for a little bit, adjust the camera to proper surveillance position according to your practical requirements.

### Step 7

Secure the knob of the bracket to fix the camera.
